Let's talk about January 6th. A few weeks ago I was given information, I would not even discuss it unless I could corroborate it. I have now received corroboration from three different people in two different agencies. I won't name the people or the agencies.

Violence had been planned for weeks prior to the election, violence to occupy the White House and the surrounding area to demand president Trump leave after he was re-elected. These plans were well known and were prepared for well in advance.

"massive march, protest, riot"

The DS Dems, managed to steal the election and take the office. So instead of a riot to remove president Trump they wanted an "insurrection" to solidify their win and guarantee no one could question the election results.

The people were already in place for a riot they changed the name to "insurrection" and they did everything they could to ensure a bloodbath. Ordering the national guard to stand down, DC police ordered elsewhere or their forces cut, Capital police not only ordered but helping

Rioters gain access to the Capitol. Heavy machine guns were requested by the speaker and denied. And many more examples. They wanted a massacre, they wanted a deadly insurrection to solidify their illegal "win".

Ask yourself a question. We've seen these rioters for a year now, burning and destroying. Attacking people and officers all over the country. Why weren't they violent like that on January 6th? Is it because the fix was in and they knew someone was going to be killed?

The word had been passed down that there were going to be deaths and none of them wanted to go first.

What information did my three contacts pass on?
First, it was the speaker who was directing all activities for the insurrection both before and afterwards
Second, they had the help and the knowledge of the vice president, Pence. He was aware of their plans prior to the election

And helped all along. He is being promoted for president as his reward.
Speaker tried for a massacre, ordering heavy weapons, opening up the capital for attack, waiting for the violence to kick off. They were hoping that during an "occupation" when it got dark

That violence and death in the streets would occur. However President Trump stepped in an made a televised plea for everyone to leave. The DS/Dems, Speaker so their window of opportunity closing. They needed death.

A flurry of phone calls and text messages went out. Staff members in the capital we're reporting what they saw to the speakers staff and it was being relayed to the private security the speaker had. Cause and messages went out to the "go betweens", The operatives hidden in the

bLM/pantifa movement. Something needed to be done before the opportunity was lost and President Trump was given credit for diffusing the situation.

Ashli Babbitt I've been wondering around the capitol for quite some time. Non-violent just exploring and observing. Orders were given for the operatives to find someone that they could "sacrifice". So these operatives found someone they could manipulate

And they led her to slaughter. Look at AB's steps through the capitol. Just wondering around observing. Until she was approached by these people and led upstairs to the gauntlet. Once they had her it was a beeline upstairs.

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

It was the speaker who told her private security detail to use deadly force when the doors to the speakers area were breached. If you look at the shooting video. You will see them waiting until AB gets in the door. Everyone else in that hallway was an operative.

5 209 553

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

On the video several times they approach the doors that are being breached, several times they back away until they have confirmation that she, AB, is the one. When AB stood in the door they backed off, received confirmation to use deadly force from the speaker again, and fired.

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

I have been told that the actual shooter is not a capital police officer but someone who looks very similar to him, notice the hairline very distinctive, and that the actual shooter was a member of the speaker's private security detail and has been rewarded since for his silence.

11 192 506

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

At this point they had their death and they secured the area just seconds after she was shot. With armed officers on both sides why couldn't they have secured it seconds before? AB was in a squeeze play and didn't realize it.

The FB-I SWOOPED all phone, text, email records, of everyone involved, including elected officials in their staff. FB-I was able to secure all communication records and no one has seen them since.
The FB-I is now using this as extreme leverage on their part.

4 163 468

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

They now have the private communications of our elected officials and their staff planning the insurrection and murder of a young woman. And they will not give up their leverage. At this point the FBI is an autonomous agency able to do anything they want.

5 170 492

Jon-US Senate candidate MD 2022 @Johnheretohelp · 4h

Ignore any law violate any right with impunity. The speaker and the false president must support everything they do without question or the false presidency comes tumbling down if these records come out.

The FB-I is putting on a continuous show of looking for people involved in January 6th as a constant reminder to those in power that they actually hold the keys to everything

I was able to confirm that these phone records, text, Etc. Have been sifted through and a minute by minute account of the so-called insurrection from well before anything occurred, until well after her death, is available, and damning.

Just for clarification:
Other people were approached just like Ashli Babbitt, to be led upstairs. This is why the FB-I is looking for MAGA Grandma's teenage girls, ETC. They want to find the other people who were approached like AB before they realize what actually occurred.

The more accurate and corroborated information surrounding the Jan 6 insurrection the better. @RonanFarrow and @NewYorker have been doing a first class job of informing the public on the subtext of this crazed conspiracy. @DraftTulsi @jimmy_dore @OurRevolutionPR @GreenPartyUS
